

To all partners and customers

Teningen, June 2017

Announcement

Replacement of the EMIS 1500 by the PQM 1588

Dear partners and customers,

The Central Unit EMIS 1500 which has been available since 2005 will be replaced by the Power Quality Manager PQM 1588 as of July 2017.

The new PQM 1588 for DIN-rail mounting offers, additionally to the basic functions of the EMIS 1500, an extended functionality on a modern hardware platform. It thereby provides the basis for better development possibilities of the proven FRAKO energy data collection system.

The following devices and software will be replaced by:

EMIS 1500 (all versions S...XXL)	-	PQM 1588 with xx-packages, 10 system points each
License of the EMVIS 3000	-	is included in the PQM 1588
System points upgrade for EMIS 1500 50 points	-	System points upgrade for PQM in steps of 10 points
Upgrade of the existing EMIS 1500 (S to M, M to L...)	-	System points upgrade for PQM in steps of xx-packages, 10 points

Type

Article-No.

PQM 1588	20-10090
System points upgrade (10 points)	20-10495

A limited number of replacement devices of the EMIS 1500 will still be available – if needed, please get in touch with your contact person.
