## New Dynamic Power Factor Controller

Dear Ladies and Gentlemen,

We would like to inform you about current changes in our product portfolio.

With effect from October 2020, our product range will be extended with the following Power Factor Controllers for dynamic and hybrid power factor correction:

Type: PFC-12TR-1  
Part No.: 39-29060

Type: PFC-12TR-1-RS485  
Part No.: 39-29061

Both Power Factor Controllers are equipped with 12 relay and 12 transistor outputs for switching normal capacitor duty contactors and thyristor switches.

The PFC-12TR-1-RS485 also has an interface that enables to communicate, for example via the Modbus RTU protocol.

For more technical details we refer you to the datasheet.

If you have any further questions please do not hesitate to get in touch with your contact person at FRAKO.

Please forward this information to all relevant persons and departments in your company.

We thank you for your confidence in us and our products. We are looking forward to continuing our cooperation with you.

Best regards

André Göddertz  
**Product Manager**
